I'm a highly motivated and experienced full-stack web developer. I have a passion for creating dynamic and engaging websites and applications. My expertise in both front-end and back-end technologies, combined with my strong problem-solving skills and attention to detail, allow me to bring innovative solutions to complex development challenges. I am proficient in HTML, CSS, and JavaScript and have experience working with PHP and Laravel. I hold a bachelor's degree in FST and have received certifications in both frontend and backend development. I am a quick learner, team player and thrive in fast-paced environments. With my technical skills and passion for web development, I am confident in my ability to make a valuable contribution to your team.
